

COOPER STONE

Architectural Stone

Camelback

Introducing Cooper Stone's *Architectural Series.*

This new line of precision cut natural thin veneer brings a higher level of sophistication and refinement to the veneer industry. Designed to compete directly with Arriscraft and other precast artificial stone products, Cooper Stone's 100% Natural Smooth Face Stone Veneer is not only beautiful, but affordable as well.

The precision cut units come in three nominal sizes:

- 12" X 24" X 3/4"
- 8" X 24" X 3/4"
- 4" X 24" X 3/4"

Corner units are available with a 3" return or Quirk Mitered. Other products include Wall & Column Caps, Wainscot Caps, Transition Pieces & Sills.

Superior Physical Properties

- Honed Finish
- High Density
- Low Absorption
- High Compressive Strength
- High Modulus of Rupture
- Tight Tolerances (+ or - 1/16")
- 11 lbs per square foot
- 100% Natural Stone
